

D.M. WILLS

ASSOCIATES LIMITED

Dam Engineering Services

Wills' Water Resources Engineering Department, together with our Structural Engineering Department, offers comprehensive engineering services relating to the inspection, safety, design and construction of dams and other water control structures. Dam engineering services currently offered by Wills include:

- Inspections
- Dam Safety Reviews
- Public Safety Risk Assessments and Public Safety Plans
- Emergency Preparedness and Response Plans
- Environmental Assessments
- Hydrologic and Hydraulic (Dam Breach) Studies
- Design and Construction
- Permitting and Approvals

Our experienced, professional, staff are well trained and ready to serve the needs of both existing and new clients. We would be happy to discuss your upcoming project and how we can partner with you to ensure its success.
